The marine parts business is actually a rather inefficient industry with multiple layers of distribution. Sterndrive Engineering's mission is to make owning, operating, and maintaining a stern drive more affordable. To accomplish this, the company was designed to eliminate all middlemen within the industry.

Automotive petrol engines. BMW is well known for its history of inline-six (straight-six) engines, a layout it continues to use to this day despite most other manufacturers switching to a V6 layout. The more common inline-four and V8 layouts are also produced by BMW, and at times the company has produced inline-three, V10 and V12 engines.. Prototype V16 engines have been made, however they ...
