Welcome to the Department of Mathematics

To answer this question, we need to look at the roots of each place value: the mil in million represents one, the bi in billion equals two, the tri in trillion equals three, and so on. These numbers stand for the "n" in the equation 10 3 n +3.. This is a general equation which represents place value written in exponential notation.

<u>Information theory | mathematics | Britannica</u>

In mathematics, the word "division" means the operation which is the opposite of multiplication. Some symbols for division can be a slash (/), a line, or the division sign (÷), as in: / or or ÷ where each of the three expressions means "6 divided by 3", with 2 as the answer. The first number is the dividend (6), and the second number is the divisor (3).

Pi Day | Celebrate Mathematics on March 14th

In 2002, the Niels Henrik Abel Memorial Fund was established to award the Abel Prize for outstanding scientific work in the field of mathematics. The prize amount is 6 million NOK

(about 750,000 Euro) and was awarded for the first time on 3 June 2003. It is awarded yearly by the Norwegian Academy of Science and Letters in March or April.

<u>Newsroom | Western Governors University | WGU</u>

If we have 213.8 million registered voters in the US and 66.2% of all voters voted in the 2020 election, that equals 141.5 voters who voted in the 2020 election (Binney shows 140 million which is materially the same). If President Trump won 74 million votes, then that leaves only 67.5 million votes remaining for Biden.
