Background: Cancer colon is one of the most common malignancies. After colon cancer surgery patients may experience severe pain. Several studies have reported that a significant decrease in postoperative pain with propofol while other studies have showed this effect was not significant. Aim: Our goal was to assess the effect of combined epidural anaesthesia either with propofol or sevoflurane ...

Blount's disease is a growth disorder of the tibia (shin bone) that causes the lower leg to angle inward, resembling a bowleg. [citation needed] It is also known as "tibia vara". It is named after Walter Putnam Blount (1900–1992), an American pediatric orthopedic surgeon. It has also been known as Mau-

Nilsonne Syndrome, after C. Mau and H. Nilsonne, who published early case reports of the ...
